The Chartered Institute for IT/BCS IS an industry body with 68,000 members. The International Diploma in Business Analysis demonstrate your practical experience and shows you have the capabilities to be an effective business analyst.

BCS INTERNATIONAL DIPLOMA IN BUSINESS ANALYSIS

The International Diploma is designed for business and IT professionals who want to demonstrate they have a detailed understanding of business analysis best practice.

- 1 YOU NEED TO PASS 4 MODULES
- 2 THEN SIT AN ORAL EXAMINATION

THE FOUR MODULES IN THIS PROGRAMME

1. FOUNDATION CERTIFICATE IN BUSINESS ANALYSIS

- The role and competencies of a Business Analyst
- Investigation techniques, including interviews, observations, workshops and prototyping
- How to categorise, analyse and manage stakeholders
- How to model business processes
- Making a business and financial case and assessing feasibility
- How to establish, document and model requirements

2. PRACTITIONER CERTIFICATE IN BUSINESS ANALYSIS PRACTICE

The syllabus covers how to develop a business strategy and how to explore a business issue. You'll learn how to apply a range of business analysis techniques and look at a range of issues including:

- The strategic context
- How to analyse stakeholder perspectives
- How to analyse and model business activities
- How to identify potential solutions
- How to make the business case

3. PRACTITIONER CERTIFICATE IN REQUIREMENTS ENGINEERING

You'll learn how to take a systematic approach to eliciting, analysing, validating, documenting and managing requirements. The certificate includes:

- An introduction to the requirements engineering process
- The hierarchy of requirements
- How to identify stakeholders in the requirements process
- How to elicit requirements
- Modelling, designing and analysing requirements
- Requirements management

4. PRACTITIONER CERTIFICATE IN MODELLING BUSINESS PROCESSES

You'll study how to investigate, model, analyse and improve business processes. The certificate includes:

- The context for business processing modelling
- The organisational model for processes
- How to model business processes
- How to document tasks
- Evaluating and improving business processes
